You’ll need your employee PERNR and birthdate to verify eligibility, then you will create a username and password to continue. Follow the instructions to complete your registration.

You’ll need to create a separate account for your spouse/partner. On the “Confirm Your Eligibility” screen, enter the following:

Box 1: Employee PERNR followed by spouse/partner 8-digit birth date with no spaces or special characters

Box 2: Spouse/partner birth date in MM/DD/YYYY format

Box 3: Non-Employee

Once you (and your spouse or partner) are registered, you’ll be able to access the site to schedule an onsite biometric screening or flu shot, make a screening appointment at a Quest Patient Service Center, or download a form to take with you to your doctor’s office to report your screening results.

- A Body Mass Index (BMI) less than 27

You and your enrolled spouse/partner will each earn \$100 for each goal you achieve. The maximum reward for meeting both the BP and BMI requirements between October 1, 2018 and September 30, 2019 is \$200 per individual.

7) Do I need to enter my results from the biometric screening into my Personal Health Assessment (PHA)?

No. Your results will be electronically uploaded into your PHA when you get your biometric screening at an onsite screening location. If you get your screening at your doctor's office, make sure you take the Physician Results Form with you so that your results are sent to Cigna to be uploaded into your PHA. If you get a screening at a Quest Patient Service Center your results will be provided to Cigna and you'll be able to view them in 5-6 business days. If you know your approximate numbers, you may manually enter them in the PHA; however, they will be replaced when your official results from an approved screening location are uploaded into the PHA. Please note that biometric values manually entered into the PHA will not satisfy the requirements for validated biometric screening results to earn your rewards.

You must have your biometric screening done at one of the following approved locations:

- **Onsite:** Screenings are offered at benefits showcases and biometric screening events held at certain Disney locations throughout the year. To find an onsite screening location near you, go to my.QuestForHealth.com
