

# Stable Value Investment Option

## Oregon Public Universities Retirement Plans

Voya Stabilizer<sup>SM</sup> is the Voya Financial<sup>®</sup> trademark name for a series of stable value separate accounts marketed to 401, 457 and 403(b) plans. Stabilizer is available through a group annuity contract issued by Voya Retirement Insurance and Annuity Company (VRIAC).

### Asset class

Stability of Principal

### What is the stable value option?

The stable value investment option of your defined contribution plan seeks to preserve participant account balances and to return steady growth over time without daily fluctuations.

### What is Stabilizer?

It is an insurance company participating separate account group annuity contract provided by VRIAC. Subject to certain conditions, the contract generally guarantees the availability of participant account balances in the ordinary course of the plan's operation. The guarantees provided by the contract are based on the claims-paying ability of VRIAC and are supported by its full faith and credit. VRIAC is a leading provider of stable value products and services and a member of the Voya<sup>®</sup> family of companies. The separate account assets are managed by Voya Investment Management LLC. The assets held in the separate account are "insulated" from claims arising out of any other business conducted by VRIAC and can be used only for the benefit of plan participants.

### What does it invest in?

The separate account invests in a diversified portfolio of fixed income assets. This diversified separate account portfolio seeks to maintain a high overall credit quality and consists of various publicly traded fixed-income instruments.

### Potential risks

Under some scenarios it is possible for participants to lose money even in a stable value option. Those situations are unlikely and rarely occur, but they can happen. It's important for investors to be aware of these potential risks. Withdrawals resulting from employer initiated events, such as withdrawals following mass layoffs, employer bankruptcy, or full or partial plan termination are not always covered by Stabilizer's guarantees and may be restricted or subject to market value adjustment. Your stable value account balance is not guaranteed by the Federal Deposit Insurance Corporation (FDIC), by any other government agency or by your plan.

### What is the objective?

Stability of principal is the primary objective of this investment option. While the contract is active, Voya's Stabilizer<sup>SM</sup> guarantees a minimum rate of interest and may credit a higher interest rate from period to period. The credited interest rate is subject to change, up or down, but will never fall below the guaranteed minimum. Once the interest at the applicable rate is credited, the interest becomes part of the principal and may increase through compound interest.

### How does it benefit me?

The stable value investment option is intended to help insulate against the daily fluctuations in market value. An announced rate of interest is another feature of stable value investment option.

### How is the rate of interest stated?

Participant balances are credited interest daily. This rate is net of all Voya expenses and will apply to all new contributions and existing account balances for the specified period. The crediting rate is announced in advance of the upcoming crediting rate period. The crediting interest rate for 10/01/2020 to 12/31/2020 will be 3.00%.

### What are the fees?

Total annual fees are 0.90%, based on current invested assets.

This portfolio is not a registered investment under the 1940 Act and has not been registered with the Securities and Exchange Commission.

### Are there any limitations on contributions, withdrawals, or transfers from my plan's stable value option?

Voya generally does not limit contributions or withdrawals as a result of retirement, death, disability, unforeseen hardship, separation from service, or attainment of age 65 (consult your own plan for limitations), however sometimes there are restrictions on participant transfers. Participant transfers between the stable value option and funds with similar investment objectives (referred to as competing funds) may be subject to an industry standard 90 day "equity wash" provision.

A 4% charge will be applied against a participant's account for a transfer from Stabilizer to an investment option offered by a competing platform, such as another Oregon Public Universities Retirement Plan provider, if the transfer, when combined with other similar transfers, exceeds 15% of the participant's Stabilizer balance as of the previous December 31 or the participant is not age 65 or older on the date of the requested transfer.

Oregon Public Universities are not members of the Voya family of companies.

Insurance products, annuities and retirement plan funding issued by (third party administrative services may also be provided by) Voya Retirement Insurance and Annuity Company ("VRIAC"), Windsor, CT or ReliaStar Life Insurance Company, ("ReliaStar"), Minneapolis, MN. VRIAC or ReliaStar is solely responsible for meeting its obligations. Plan administrative services provided by VRIAC or Voya Institutional Plan Services LLC ("VIPS"). VIPS does not engage in the sale or solicitation of securities. All companies are members of the Voya<sup>®</sup> family of companies. Securities distributed by Voya Financial Partners LLC (member SIPC) or third parties with which it has a selling agreement. All products or services may not be available in all states. Only VRIAC is admitted and its products offered in the state of New York.
