

## GE Stock Performance

The performance information shown below is the historical performance of GE Stock (not of the GE Stock Fund) for the periods shown. Since GE Stock is the major component of the GE Stock Fund, this information is provided to help you understand the potential risk and volatility of an investment in the GE Stock Fund. Although the GE Stock Fund's performance closely tracks the performance of GE Stock, the GE Stock Fund contains a small cash component and the correlation is not exact.

Total Returns	GE Stock	S&P 500® Index
01/01/2000 - 12/31/2000	-6.04%	-9.10%

The RSP offers the GE Stock Fund (and not GE Stock) as an investment option. Information on the actual performance of the GE Stock Fund is available on the GE Stock Fund investment page from which you accessed this document. You should also consult the Disclosure Statement in the RSP Supplemental Information document for more information about the GE Stock Fund. See GE's Annual Report for more information about GE.

The performance data featured represents past performance, which is no guarantee of future results. Investment return and principal value of an investment will fluctuate; therefore, you may have a gain or loss when you sell your investment. Current performance may be higher or lower than the performance data quoted.

The values shown are based on the closing price of GE Stock as of the last business day of the stated period, as reported by the Consolidated Tape of New York Stock Exchange listed shares.

The S&P 500® Index is a registered service mark of The McGraw-Hill Companies, Inc., and has been licensed for use by Fidelity Distributors Corporation and its affiliates. It is an unmanaged index of the common stock prices of 500 widely held U.S. stocks that include the reinvestment of dividends.
